

KIDSZONE

THE POTTY TRAINING JOURNEY

As our little ones go through the Toddler years, we know that potty training is one of their key milestones that parents focus on. We want to help you and your toddler in Kidszone as they start their potty training adventure.

A few things that help us to navigate this season of potty training well in Kidszone:

- When you drop off your little one, please inform the team that you have started the potty training season with your child so we can make a note for our toilet runs.
- We encourage parents to pack a complete change of clothing and extra panties or undies as accidents do happen in this season. Our goal is to make sure that we keep your little ones comfortable during this season.

Labelling Bags, Clothes and Bottles

Please may you label all bags, coats, water bottles and other items like comfy blankets that your child brings to Kidszone. For our toddlers, milk bottles, sippy cups, teddies, dummies, etc., should also be labelled.

Cars and Soft Toys

We encourage parents/guardians to keep all toy cars, soft toys and sunglasses with them or in their car. We provide age appropriate toys and games for the time your child is in Kidszone.

Wellness

Children who have shown signs of fever, vomiting or other contagious illnesses should be symptom- and fever-free for 24 hours before coming to Kidszone.
