INTRO: 4 6 5 3 4

VERSE 1: 1

```
4                   6     5
Every single thing created
               3     4
Anything anticipated
4                     6     5  3  4
Everything it all belongs to You
4                       6   5
As the Heavens sing Your glory
                     3     4
All the skies proclaim Your story
4                       6   5
Leading us towards the truth
```

CHORUS:

```
3     4     6     5
No words could say
3     4     6     5
How great Your name
3     4     6     5
How wide how long
3     4     6     5
How high Your love
```

VERSE 2:

```
Every single thing created
Anything anticipated
Finds it's rightful place in You
Time reveals Your endless glory
History is Your story
Leading us towards the truth
```

CHORUS [X1]

INST: 2 4 1 5

BRIDGE 1:

```
                    2
Greater than my chains
                       4
Higher than these walls
                       1
or anything I've faced
                         5
You're bigger than it all
```

Greater than the dark
It flees from who You are
Greater than the storms
That rage within my heart.

Greater than the stars
Held high within their place
Higher than the mountains
Stronger than the waves

Yesterday today
Your word will never change
My rock and my redeemer
The One who made a way.

Greater than my past
Than my biggest mistakes
Stronger than my fears
Your love it never fails

Greater than disease
Stronger than the grave
High above it all
Forever You will reign.
