

Greater Than

Adrian Olivier

Verse 1

Every single thing created
Anything anticipated
Everything it all belongs to You
As the Heavens sing Your glory
All the skies proclaim Your story
Leading us towards the truth

Chorus

No words could say
How great Your name
How wide how long
How high Your love.

Verse 2

Every single thing created
Anything anticipated
Finds it's rightful place in You
Time reveals Your endless glory
History is Your story
Leading us towards the truth

Chorus

No words could say
How great Your name
How wide how long
How high Your love

Bridge

Greater than my chains
Higher than these walls
Or anything I've faced
You're bigger than it all

Greater than the dark
It flees from who You are
Greater than the storms
That rage within my heart.

Greater than the stars
Held high within their place
Higher than the mountains
Stronger than the waves

Yesterday today
Your word will never change
My rock and my redeemer
The One who made a way.

Greater than my past
Than my biggest mistakes
Stronger than my fears
Your love it never fails

Greater than disease
Stronger than the grave
High above it all
Forever You will reign.
